

## **Worship only God. Exodus 20:1-4; 32:1-26**

This week your child learned how God wants us to worship him. God is loving, so

**we worship only God.**

**Use this activity to reinforce what your child learned.**

Take the *orbit ball* and sit together on the floor. Let each person try pushing the *orbit ball* gently to another person. Discuss what you notice about how the ball rolls.

Talk about how the *orbit ball* doesn't always roll in a straight path, and how sometimes in our lives we don't stay on the straight path either. We let other things come before God.

Let family members each hold the ball and say a way they can keep God first in their lives and worship only him this week. Then thank God for being so awesome and deserving of our worship!
